

Agricultural Machinery & Equipment: Hydraulic Cylinder Rods in Heavy-Duty Farm Equipment

net Industric High-Performance Steel Bright Bars for Hydraulic Cylinder Rods

Hydraulic systems power some of the most essential components in modern agricultural machinery, including tractors, harvesters, and tilling equipment. Steelmet Industriesa?? cold drawn steel bright bars are widely used in manufacturing hydraulic cylinder rods, ensuring precision, durability, and corrosion resistance for heavy-duty farm equipment. Steels

Why Hydraulic Cylinder Rods Require High-Quality Steel?

Hydraulic cylinders play a critical role in **lifting**, **pushing**, **pulling**, **and controlling various farm implements**. These rods must withstand:

- â?? High pressure and extreme loads â?? Ensuring reliability under constant force
- â?? Corrosion from moisture and chemicals â?? Protecting against rust and wear
- â?? Precise linear motion â?? Maintaining smooth and controlled movement
- a?? Resistance to bending and fatigue a?? Preventing failure under repeated stress

Applications in Heavy-Duty Farm Equipment

1. Hydraulic Systems in Tractors & Harvesters

Steel bright bars are used in hydraulic cylinder rods for:

- Tractor lift arms a?? Enabling attachment and adjustment of plows, harrows, and seeders
- Harvester cutting head control a?? Adjusting blade height for optimal crop cutting

• Loader arms & hydraulic lifts a?? Supporting heavy loads during farm operations

2. Tilling & Land Preparation Equipment

Cold drawn bright bars are essential in:

- Hydraulic depth control cylinders a?? Regulating plow and tiller depth for soil consistency
- Leveling and grading attachments a?? Enabling precise land preparation
- Hydraulic press systems a?? Assisting in soil compaction and irrigation channeling

Steel Grades Used for Hydraulic Cylinder Rods

Steelmet Industries supplies precision-engineered bright bars in:

- EN8 (C45, AISI 1045) a?? Excellent toughness for medium-duty hydraulic applications
- EN19 (42CrMo4, AISI 4140) a?? High-strength alloy steel for heavy-duty farm equipment
- EN24 (40CrNiMo6, AISI 4340) a?? Superior impact resistance and fatigue strength

Why Choose Steelmet Industries?

- ð??1 Precision-engineered steel bright bars for hydraulic applications
- **ŏ??¹** Tight tolerances for smooth operation
- ŏ??¹ Corrosion-resistant coatings available
- **8**8??1 Custom sizes to meet OEM specifications

ŏ??? Visit www.steelmet.in for premium-quality steel bright bars for hydraulic applications.
