

C55 VD Route Rolled Rounds 120 to 200 mm

Description

Freshly rolled and ready for dispatch!

Steelmet Industries now offers **C55 VD Route Rolled Rounds** in sizes **120 to 200 mm**, standard length **18-20 ft**.

C55 is a high carbon steel known for its **excellent wear resistance, superior strength, and good hardenability**, making it ideal for **forged components, crankshafts, spindles, connecting rods, and hand tools**.

Processed through the **Vacuum Degassed (VD) Route**, these bars ensure clean internal soundness, improved machinability, and predictable response to heat treatment ensuring durability and dimensional accuracy in every application.

Also available in **related grades** like **EN9, CK55, and AISI1055**, along with other carbon and alloy steel grades upon request.

Book your requirement or schedule your next batch with Steelmet Industries.
