

Precision Steel Bright Bars for Elevator Shafts, Crane Shafts & Industrial Lifting Equipment

àphap; apt Industrie

In the world of **heavy construction and industrial infrastructure**, reliability isnâ??t just important â?? itâ??s mandatory. **Steelmet Industries** provides high-performance **cold drawn steel bright bars** engineered specifically for **elevator systems**, **crane mechanisms**, **and industrial lifting equipment**, where failure is never an option.

Why Shaft Quality Matters in Vertical Transportation teels

Lifting equipment operates under:

- Constant dynamic loads (sudden starts/stops)
- **High torsional stress** (twisting forces)
- Cyclic fatigue (repeated use over decades)
- Environmental exposure (temperature swings, humidity)

Our bright bars deliver:

- a?? Consistent dimensional tolerance for perfect bearing fits
- a?? Superior straightness to prevent vibration
- â?? Fatigue life 3X industry standard
- â?? Custom lengths for seamless installation

Critical Applications

1. Elevator Shafts

- Guide rails for smooth cab movement
- Counterweight shafts in high-rise buildings
- Hydraulic piston rods for low-rise systems

2. Crane Systems

- Rotation shafts for tower crane slewing units
- Hoist drum shafts in overhead cranes

 Boom extension rods for mobile cranes

 Cels, Stainless Steels Hoist drum shafts in overhead cranes

3. Industrial Lifting

- Scissor lift actuator rods
- · Warehouse conveyor drive shafts

Technical Specifications

Grade	Hardness (HRC)	Tensile Strength (MPa)	Key Advantage	Best For
EN19	28-32	850-1000	Impact resistance	Mobile crane shafts
EN24	32-36	1000-1200	Fatigue strength	Elevator guide rails
EN10083-3	38-42	1200+	Wear resistance	Hoist drum shafts

^{*}All grades available with optional:

• Phosphating for corrosion protection

- Pre-machining to reduce installation time
- Ultrasonic testing for defect detection*

Why Steelmet Leads in Infrastructure Solutions

- a?? On-site technical consultations for load calculations
- â?? Batch traceability with mill test certificates
- a?? Just-in-time delivery to keep projects on schedule
- a?? Custom alloy development for extreme environments
