

Applications

Industry	Use
Fabrication	Heavy brackets, plates, jigs
Construction	Base plates, columns, tie rods
Re-rolling	Flats, angles, special sections
OEM / Workshop	Subassemblies and weldable parts

Key Advantages

- Mid-range sizes ideal for various re-rolling and fabrication purposes
- Flexible cut lengths and cold saw cutting on request
- Cost-effective for bulk orders and standard use
- Available from ready stock or short lead times

Frequently Asked Questions (FAQs)

Is this certified or tested material?

No. This is untested, ungraded commercial quality mild steel suitable for general and non-critical use.

Can I order custom-length bars?

Yes. Exact-length bars up to 22 ft are available against order. Cold saw cut ends can also be provided for cleaner edges.

What is the surface condition?

Black finish hot rolled surface with oxide scale. If you need smooth finish, check our Bright Bar section.

Are these bars weldable?

Yes. These low carbon MS bars are easily weldable using standard MIG/Arc processes.

Ordering & Dispatch

Order Type	Stock Status	Dispatch Time
Standard Bars	In Stock	2-3 Working Days
Exact-Length / Cold Saw Cut Against Order		5-7 Working Days
