

20MnCr5 VD Route Rolled Rounds 50 to 200 mm

Descrição

Production lot now available for immediate dispatch!

Steelmet Industries presents **20MnCr5 VD Route Rolled Rounds** in sizes **50 to 200 mm**, standard length **18 to 20 ft**.

20MnCr5 is a low-alloy case-hardening steel renowned for its **excellent core strength, toughness, and hardenability**, making it ideal for **gears, shafts, pinions, and other transmission components** that demand high surface wear resistance and fatigue strength.

Manufactured through the **Vacuum Degassed (VD) Route**, these bars feature low inclusion content, clean microstructure, and exceptional consistency during machining and heat treatment. Each bar is tested to ensure reliability in critical applications.

Also available in **related grades** such as **16MnCr5, 8620, and 5115**, and in other alloy steels upon request.

Secure your requirement now.
