

## SAE 1018 Cold Drawn Hexagons – Precision & Strength in Every Bar

### Description

**SAE 1018 cold drawn hexagonal bars** are a popular choice across industries for their excellent machinability, dimensional accuracy, and balanced mechanical properties. These bars are made from **low carbon steel (C18)** and cold drawn to a bright finish and tight tolerances.

At **Steelmet Industries**, we manufacture and supply **SAE 1018 cold drawn hexagons** in a variety of sizes, including **non-standard dimensions**. Our bars are preferred for critical applications where close tolerances, improved surface finish, and higher mechanical properties are essential.

## Key Properties of SAE 1018 Cold Drawn Hexagons

- **Carbon Content:** Approx. 0.18%
- **Excellent Machinability**
- **Good Weldability**
- **High Dimensional Accuracy**
- **Better Surface Finish Compared to Hot Rolled**
- **Suitable for Case Hardening**

---

## Common Applications

SAE 1018 hex bars are widely used in:

- Automotive components
- Fasteners, bolts, studs
- Shafts and spindles
- Precision machined components
- General engineering parts
- Textile and agricultural machinery

---

## Available Forms at Steelmet Industries

Along with **hexagonal bars**, SAE 1018 is also available in:

- **Rounds**
- **Squares**
- **Flats**
- **Custom-made special profiles** (e.g., half-rounds, irregular hexagons, D-shapes)

Also available in **peeled, ground, and centerless ground** conditions on request.

---

## Global Equivalents of SAE 1018

Standard	Grade
----------	-------

---

AISI/SAE	1018
EN	C15E, C16E
DIN	1.0401 (C15), 1.1141 (C15E)
BS 970	080M15
IS	IS 1875 C15
JIS	S15C
GOST	15
ISO	C16
AFNOR	XC18
UNI	C15E
GB (China)	15

*Disclaimer: Equivalent grades are based on similar chemical compositions and intended mechanical properties. End-use suitability must be confirmed based on detailed specs.*

## Why Choose Steelmet Industries?

Steelmet Industries ensures:

- **Widest size range** including **non-standard dimensions**
- **Custom cutting** and **length customization**
- **Fast & scheduled deliveries**, both for domestic and overseas customers
- **Complete traceability** upon prior agreement:
  - Original mill test certificates (MTCs)

- Lab reports, internal inspection reports
- Third-party inspection
- Transport documentation including lorry receipts

Read our [Quality Policy](#) for more on our commitment to excellence.

## Contact Us for Your Requirements

Need SAE 1018 Cold Drawn Hexagons? Contact Steelmet Industries - your trusted partner in precision steel.
