

C45 VD Route Rolled Rounds 120 to 200 mm

Description

New stock ready for dispatch!

We now offer **C45 VD Route Rolled Rounds** in sizes **120 to 200 mm**, standard length **18-20 ft**.

C45 is a medium carbon steel known for its **high strength, good machinability, and excellent wear resistance** making it ideal for **forged shafts, gears, crank pins, and machine components**.

The **VD Route (Vacuum Degassed)** process ensures consistent internal quality and a cleaner structure, providing reliable results during heat treatment and machining operations.

Also available in **related grades** such as **EN8, AISI 1045, and CK45**, and in other alloy grades upon request.

Ready-to-ship material available – contact Steelmet Industries today.
